

**Cara Rice, RN, PHN, MPA**

*End Polio Now | Eradicate Polio Worldwide*

For over 20 years, Rotary International and its Clubs worldwide have focused on eradicating Polio. As a Registered Public Health Nurse, I am devoting this year to educating the general public on how this paralyzing disease is robbing children of their ability to walk, run, jump, skip and play games. Rotary is [this close] to wiping out this dreaded disease and 2012 marks the historical event. I am asking that you JOIN US by getting involved in the movement.
